## OBJECTIVE

To Work in learning and challenging environment, utilizing my skills and knowledge to be best of my abilities and Contribute positively to my personal growth and growth of the organization. I will fulfill my commitments and Make changes in myself whenever necessary.

---

## TECHNICAL SKILLS

- **Programming Language:** Python, Java, SQL
  - **Visualizations tool:** Power Bi
  - **Databases & Platform:** Oracle, MySQL
  - **Web Technologies:** Html, CSS, JavaScript
  - **Technologies:** GenAI, LLM, RAG
- 

## PROJECTS

### 1. Weather Application

[ Html, CSS, JavaScript]

- Developed a responsive weather web application to display real-time weather data for different cities
- Designed and implemented a clean and user-friendly UI using HTML and CSS
- Used JavaScript for DOM manipulation and dynamic data rendering based on API responses
- Strengthened skills in API integration, asynchronous programming, and front-end development

### 2. Fake News Detection

[ Python, Machine Learning, NLP]

- Developed a machine learning-based system to classify news articles as real or fake
  - Achieved high accuracy by tuning model parameters and optimizing performance
  - Built a simple user interface to input news content and display prediction results
  - Demonstrated skills in Python, data preprocessing, and machine learning model development
- 

## EDUCATION

**M.S BIDVE Engineering College 7.6 CGPA | 2022-2026 |** Dr Babasaheb Ambedkar Technological University

---

## CERTIFICATIONS

- **Google Analytics Certification (online)**  
By Google
  - **Data Analysis Job Simulation (online)**  
By Deloitte
- 

## Soft Skills

- Time Management
- Problem Solving
- Critical thinking
- Good Communication
